

# WHAT'S "WHISTLING" IN THE CARDINAL CLASS FOR JUNE 2021

## June Science Experiment...

### 1. The Water Mystery

- Problem: What will happen to water surrounding a candle under a jar when the candle begins to burn?
- The children will observe that air moves from areas of higher pressure to lower pressure. When the candle is lit and the pressure inside the jar becomes lower than the pressure outside the jar, the colored water is pushed into the jar by the higher pressure air outside!

## Meet Letter J

The children will:

- Meet Jolly Jogger!
- "Read" our Jj rhyme and bring it home to "Read" to you!
- Print each letter in their individual handwriting books.
- Make pictures of things that start with the letter J in their picture dictionary book

## We will be Reviewing the Numbers

## we have Learned this Year

### Sight Words

The Cardinals will continue working with sight words. Please see your teacher's calendar for a list of which words your child will be working on throughout the month.

### End of the Year Artwork:

In June, the children will create a wonderful painting and a story that they will present at their graduation ceremony- it's a surprise so we won't say anything more!!

### Big Word of the Week

Jubilant: A feeling or expressing great happiness and triumph.

## Picnics and Outdoor Fun

The children will celebrate their end of the year class picnic by having ice pops and watermelon. They will also play with bubbles and chalk!

## Father's Day

The Cardinals will be making special gifts for Daddy!
